No Cause for Alarm.

By Cable to the News.

LONDON, Nov. 2.—The Daily Telegraph, commending upon the dispatches from Philadelphia about the fisheries dispute, says: In a world where no two well informed people think alike on any given subject, why should the fact that Lord Salisbury and Secretary Evarts are unable to take quite the same view creates in Philadelphia a profound sensation. Let the whole of the facts be put before the public and we are sure that men of common sense in both countries will soon arrive at a friendly agreement. There are no other comments on the subject in press. There is not sufficient information published here to justify any expression of opinion. All that is known publicly regarding the controversy has come from the United States.

Depression in Cotton.

By Cable to the News.

LONDON, Nov. 2.—The annual review of cotton trade says, English cotton industries have been more or less depressed throughout the past seaton. Russian cotton industries, aided by the high duties, appear to have been prosperous, but from Germany, France, Austria, Switzerland, Belgium and Holland complaints are more or less conspicuous. Indeed the whole continent suffers from glutted markets and low prices. The principal reason for the badness of the trade is beileved to be, not over production, but political uncertainty.

Divorced, Married and Died.

N. Y. Tribune.

On Friday morning, October 4, the report of the referee in the case of Beals against Beals—an action for divorce—was submitted and placed on file in a San Francisco Court. On the same afternoon Judge Wheeler, learning of Mrs. Beals' serious illness, entered an order granting decree of divorce to H. Channing Beals, and permitting the divorced wife to reassume her maiden name of Mary Eliza Ward. On the same afternoon the late Mrs. Beales was united in the bonds of wedlock with Mr. Baldwin Gardner, by the same clergyman who had performed the ceremony at the Ward-Beals nuptials. The second marriage was for the purpose of legitimatizing, under California law, the two children of Mr. Gardiner and Mrs. Beals. An hour and a half after the bedside marriage Mrs. Gardiner died. The divorce, marriage and death are all in the same San Francisco paper as separate items.

The World's Fair at New York.

Washington Star.

The meeting of prominent merchants and others in New York city for the purpose of taking some action in favor of holding a world's fair in New York in the year 1889, or sooner, seems to have given the matter a prominent start. The question whether the exhibition shall be held in 1889, or sooner, is one that is likely to cause discussion. The advocates discussion. The advocates of the later date desire to celebrate the hundredth anniversary of the inauguration of Washington as President. By their arrangement this date, the 30th of April, would mark the commencement of the exposition. It is proposed on the other hand to make the world's fair commemorat by its close on the 25th of November, 1883, the evacuation of New York by the British troops, which marked the close, as the declaration of independence marked the beginning, of our revolutionary struggle. The time before either of the proposed dates is ample for preparation. It seems to be taking a long look a head, at the rate at which Americaus live to put down such an affair for a time more than ten years in the future; but such postponement will perhaps carry its clear or the international fairs that are proposed all over the world, from Australia to Mexico, and will enable it to show a more decided advance in the arts and industries than if the exhibition were held at an earlier date.

How Will They Settle It.

Chicago Tribune.

A renewal of hostilities in Eastern Europe is confidently predicted not only by the English press, but the tone of the Russian journals is such as to indicate a general sentiment in that country in favor of war. There is, however, a striking difference of opinion as to the causes which render such course necessary. The English journals attribute all the obstacles in the way of the execution of the Berlin treaty to the Russian Government, and openly hint that if the signatory Powers do not intervene or force a strict compliance with the terms of that instrument, England may be compelled to take the task upon herself. The Russian press, arguing from their view of the situation, declare that the Turkish Goveenment is now, as it always has been, totally oblivious of all treaty obligations, and that fresh application of the instruments of torture in the shape of invading armies is the only method of bringing the Porte to its senses.

An Unpleasant Resemblance.

A remarkable case of mistaken identity is reported from Boston Highlands. A young man of good character, named Edward Leonard, was arrested there last summer for a local burglary and for house robberies in towns of the vicinity. In almost every case the thief had worked in the day-time, and he was seen by several persons, all of whom identified Leonard as the man. In only one case could he prove an alibi, and his chances for a term in State prison seemed good, when "Baltimore Jim," an accomplished housebreaker, was arrested and the remarkable resemblance between the two men was discovered. Most of the cases against Leonard were withdrawn, and in one which went to trial he was promptly acquitted.

The Army as a Posse Comitatus.

Secretary McCrary will not recommend an increase of the army in his forthcoming report to Congress, but will oppose any further reduction in its numbers, and show that Indian hostilities and troubles constantly threatening in different parts of the country and on the Mexican border are a severe tax on our small and scattered forces; the skeleton of the army is big enough, but authority is wanted to fill the companies to their maximum number. The secretary is bitterly opposed to the *posse comitatus* clause of last session's army bill, and, doubting its constitutionality, will urge its repeal, as he does not question that the framers of the constitution meant to provide for the army's employment to preserve the peace and prevent violence in cities and communities.

Cattle Disease in Virginia.

Alexandria Gazette.

The disease among the cows seems to be alarmingly on the increase in this city. Many persons have lost valuable milch cows, and hardly a day passes without five or six being added to the number. Some housekeepers are becoming very much alarmed on the subject of milk, as many gallons are sold which come from diseased cows. Should there be no change for the better shortly, the use of milk will become more hazardous than that of stronger liquids. The cows are taken sick suddenly and die in a few days.

Second Day--Large Attendance --Spirited Addresses--Reports of Sabbath School Work.

He was followed by Mr. Jos T Lineback, of Salisbury, and Rev W C Norman, of Raleigh, who being the appointed speakers on that subject, closed the discussion. President Burwell invited any delegate present to give his views to the convention on the subject of "The Work." Mr P F Pescud, of Raleigh, Rev G S Jones, of Wilmington, and Mr A G Newell, of Greensboro, responded in ten minutes' speeches. After the song "Work, for the Night is Coming." Rev. Dr Thos H Pritchard addressed the convention, giving an interesting account of the progress of the Sunday School at Hepzibah church, in Wake county; also giving sound advice on the necessity of inducing children to contribute cheerfully and liberally their mites to the Treasury of the Sunday School.

Mr A M McPheeters, who was interrupted at the Friday afternoon meeting, in making his report of the Penitentiary S S., by the adjournment of the body, was invited by President Burwell to resume his report. This esteemed gentleman, in a few pertinent and soul-stirring remarks, gave the entire history of the good work that had been accomplished by his Sunday School at the Penitentiary, including many touching incidents of which he was an eye witness. He closed his remarks with an earnest exhortation to the teachers present to be punctual in their attendance at their several schools, and solemnly warned the convention of the evil results of meeting their classes at irregular times. He then invited the members of the convention to visit the Penitentiary school on Sunday afternoon, saying he would meet the members who wished to accompany him to the school, at the 1st Baptist church at 1:45 o'clock p. m. The invitation was accepted by many of the members. Mr A D Taylor, also made a few remarks about the Penitentiary Sunday School.

It was moved and carried that a committee of three be appointed on finance. The president appointed Col J M Heck, C G Yates and A G Newell as the committee. The resolution appointing an Executive Committee was reconsidered and by consent withdrawn.

On motion of Mr. Murdoch, the time and place of meeting of the next convention was now considered. Mr. Murdoch nominated Salisbury, as the place of meeting. Mr. A M McPheeters named Raleigh and Mr. Yates, Greensboro. The vote being taken, Greensboro was chosen. The time of the next meeting was left to an Executive Committee to arrange.

Col. J M Heck moved that there be an executive committee consisting of 7 members, three of whom shall reside in and around Greensboro, and three to constitute a quorum,—carried. It was resolved that the executive committee shall, in the name of the convention, prepare an address to the Sunday School workers in the State, urging them to organize at once township and county conventions, in order that the great Sunday School work in the State may be thoroughly prosecuted, and that the editors of the religious and secular papers be requested to publish the same, and that the executive committee be authorized to trasact any business necessary before the next meeting of the convention.

The president announced as the order of the afternoon, a discussion on the subject "How is the work best promoted." The discussion was opened by Isham Royall, Esq, followed by Col. J M Heck.

Mr. Jno E Ray read several communications from parties unable to attend the convention.

A song followed after which the chairman invited any member of the convention to speak on the subject of the evening. Rev Dr Burwell was requested to address the body. Mr A M McPheeters followed in a short speech.

THE WINTER FASHIONS.

Imported dresses show that basques and waists of all kinds are still very long.

The newest thing in millinery is the India Cashmere feathers, so called because of their brilliant coloring.

Parisian ladies are wearing turbans of silk for headdresses. They are worn by bridesmaids at morning wedding.

Very fancifully made shoes are shown to be worn with the short costumes, which will be shorter than ever next winter.

The large linen collars worn by young girls are unbecoming in the majority of cases, and frills are supplanting them again.

The short skirt will continue in favor the coming season. Ladies are too sensible to readily abandon so pretty and comfortable a fashion.

Newest brocades show several colors in one pattern; the figure is always small and well interwoven, and the ground is darker than the overlying pattern or figure.

Round collars are in vogue once more, and where a sacque is trimmed with lace, wide rows, quite full, supply a collar which reaches to the shoulder.

Overskirts are change, and are long, wrinkled, and intended chiefly for drapery effects to many familiar designs, and looping at the back shows the old style bee's wing once more.

Knife plaitings of silk are exceedingly dressy and much admired on childrens' dresses this season; on the hems of dresses they are made to flare, and are never over two inches wide at the utmost.

Polonaise suits are in dark cloth colors for ordinary street service, and are trimmed to simulate a vest and jacket, gilt braid being often employed upon the edges of the plain velvet used for trimming.

A new and stylish garment for the street is made with square cut fronts fitted by darts, and a back made long in the skirt, the latter being square, and completed by revers which meet over the extended sides and centres.

The newest fringes appear in clusters with headings wide enough to supply a heading and showy trimming upon the edge of a garment. The clusters are masses of heavy twisted silk and chenille gathered at intervals under a flat ornament.

The fashionable evening colors include rose pink, peach blossom and coral colors in very delicate shades; ceil blue, turquise bue, lilac, lavender, cream, ivory and snow white, and the pale tints, neutral grays, ecru and straw color, lemon and canary.

Plans of the Roman Catholics.

Springfield Republican.

A recent dispatch from Rome mysteriously intimated that Pope Leo was about to take steps to make the Roman Catholic church in this country more powerful than it ever has been. The dispatch was immediately contradicted in various quarters, on the authority of sundry bishops, but it proves to be true, notwithstanding, and a full account of the scheme comes by way of the Indianapolis Journal. The pope has issued a letter to the hierarchy in America directing a radical change in the administration of the church, with the stated object of bringing it into harmony with American institutions. The supreme power of the bishops over the congregations and clergy of their respective dioceses is to be substituted by a system of canons. Priests are to be made rectors instead of pastors of their parishes; the bishops will appoint the priests, but cannot afterward remove them at will, or without their commission of some ecclesiastical or moral offense; and the decision as to a priest's guilt or innocence of such a charge will not rest with the bishop, but with an ecclesiastical court of other clergymen.

Democratic Demonstration in Wilmington.

Wilmington Sun.

Wilmington fairly blazed with torches Friday night, on the occasion of the grandest political celebration she has witnessed since 1872. At an early hour tar barrels were lighted in every ward, and hundreds of men and boys were going about in the streets with torches. These assembled in front of the City Hall, at 7½ o'clock. The procession was formed, and headed by a band of music, took up the line of march to the Purcell House, where the orators of the night, press representatives and distinguished visitors were in waiting in carriages. The procession was here formed again and, headed by the mounted marshals, moved up Market to Third, where it halted in front of Col. Wadde'l's residence, gave three cheers for our next Congressman, and continued the line of march to The Oaks. Here a stand had been erected for the speakers and was brilliantly illuminated by transparencies—Chinese lanterns, etc.

The Oldest Inhabitant.

Edenton Gazette.

Without doubt the oldest person in the State is now living near Nag's Head, in Dare county. Her name is Rebecca Hayman. She is the widow of Henry Hayman, deceased, and the mother of Captain Daniel Hayman, a gentleman very well known in this section. Should she live until the 15th of next May, she will be 129 years old! By the way, the Captain, who has been twice married, says he is the father of 22 children.

Old-Time Conversions.

Something has changed. Conversion in the time of Jesus, the author of our religion, was not a mental exercise or an intellectual process. It was changing one's way of living, dropping a style of conduct and taking up another style, in imitation of another man who lived that other style. Conversion, to-day, is a series of mental exercises which are supposed to ultimate in a better mode of acting. In the olden time the mode of acting preceded the mental exercise. The man, to-day, feels so and so, or thinks he does, and therefore does so and so; the man in the day of Christ began to do certain deeds, and, as the result; felt rightly. The right acting preceded the happy feeling. We have got the cart ahead of the horse, and look for happy feelings before we have done that righteousness which alone can bring happiness of mind. The joy of the Lord is only known to those who live the life of the Lord in its goodness.—[Mr. Murray in Golden Rule.

Queer Ideas.

An English clergyman relates that in his parish it was quite the fashion for the man, when giving the ring, to say to the woman, "With my body I thee wash up, and with all my hurdle goods I thee and thou." He said the women were generally better up in this part of the service than the men. One day, however, a bride startled him by promising, in what she supposed to be the language of the Prayer book, to her husband "to 'ave and to 'old from this day fortni't, for betterer horse, for richerer power, in siggerness health, to love cherries, and to bay."

The Chinese Problem.

Springfield Republican.

The views of Chinese scholars, who assure the American people that the population of China is not so vast as is supposed, nor so likely to overthrow the earth, are strengthened by the reports from Pekin of the Chinese conquest of Kashgar in the distant interior. Chinese conquest is a serious affair, and the Moslem population having been exterminated, the returning generals now offer homesteads of land and other inducements to Chinese immigrants. This will prove quite an outlet for the Chinese near home.

The Government and the Illicit Distillers.

Southern Home.

The Federal authorities have been very lenient to the illicit distillers. Amnesty was granted to over three hundred at Statesville recently. The current of public opinion has evidently turned against them, and if they again violate the law, few will care how severe their punishment may be. They are becoming a nuisance and are very expensive besides. The people are becoming tired of paying taxes for their deviltry.

The Crops in Epidemic Years.

Although epidemics may spread over the land, an Allwise Providence sends ample compensation with them. The poison of these epidemics so fatal to animal, has proven equally beneficial to vegetable life. Epidemic years, it has been remarked, yield the most abundant harvests. The year 1853 yielded the largest sugar crop Louisiana ever made. The year 1858 came along with another epidemic and another large sugar crop. The present season thus far resembles both of these, and the crop of this year promises to throw both of its predecessors completely in the shade.

Imprisoned for Liberating Her Husband.

Emma Ledy was indicted for enabling her husband, a felon, to escape from an English asylum for lunatics. The prisoner visited her husband, and took him surreptitiously a suit of clothes, which, while in the visiting room, he dexterously exchanged for his asylum dress, then concealing the latter up the chimney. In the new dress he passed from the precincts of the asylum, and has not since been heard of. The chairman said it was a novel case; the woman had rendered herself liable to penal servitude, but she was under the influence of her husband, and had been in prison since September 14. The sentence was one week's imprisonment with hard labor.

A Child's History of the State.

Warrenton Gazette.

Mr. Creecy, editor of the Elizabeth City Economist, is preparing a child's history of North Carolina, to be used in schools as a text book. We heartily endorse the idea, and have often wondered why it was that children could not learn the principles of reading as well in a history as in the regulation reader. The practice now is to take a boy or girl through five different readers, and when he finishes the fifth he has but little if any practical knowledge. While learning to read why not let him use a text book from which he might glean useful information about his own State and country.

ELECTION—TUESDAY, NOVEMBER 5TH.

Democrats, do your duty, and fail not.

Only one more working day before the election. Are our people alive to the issues? Let there be no flinching, nothing but solid voting and earnest effort for that noble leader, Jos. J. Davis.

Honest men, come out on next Tuesday, and do your best towards furthering the prosperity of your country, by casting your votes for that incorruptible statesman, Joseph J. Davis.

The general Signal Service office at Washington reports that seventy-five per cent. of the weather predictions during the past year have been verified. This is close work, and a few years ago it would have been deemed impossible.

Are Democrats aware of the fact that the only danger of failure now lies in their own apathy? Shall the scene so often seen of *good* Democrats failing to do their duty as workers be once again re-enacted? We trust not, and adjure every one, by all he holds dear, to do his duty to his District, his State and his Party.

The National organs of Virginia now call Gen. Johnston a murderer, while those of Georgia allude to Gen. Gordon as a blatherskite. Such epithets will assist the canvass these gentlemen are making in their respective States, and it is entirely safe to say that they will not injure the Democratic canvass in the South generally.

The New York daily Bulletin of last Saturday says an intelligent banker of that city, who during a recent trip across the Atlantic, had access to the highest bank circles in London, informs us that he found there a very general opinion that the depreciation of silver would prove only temporary. Among those who expressed this view were the Governor of the Bank of England and the head of the house of the Rothchilds. These expressions of opinion are worthy of note as an offset to the fears prevailing in some quarters that the depreciation of our silver circulation may prove a source of embarrassment of indefinite duration.

The Washington Post says: The tenacity with which Northern Republicans hold to the assertion that all the colored men in the Southern States are anxious to vote the Republican ticket, is simply absurd. Since 1872 there has been a great change, both North and South, in the political status of the black men. They have seen the emptiness of Radical professions of special regard for their race. They have been swindled and deluded by christian statesmen, and they have come to look at political affairs more rationally than when they were first enfranchised. As a result of this, many thousands of them have openly deserted the Radical organization, and vote the Democratic ticket from conviction and choice, as freely as their white neighbors.

According to the Science of Health, a medical journal, the ensuing seven years will be a period of war, famine and pestilence upon the face of the earth, superinduced by celestial causes. It is noted that the period of woe unto mankind has already set in, as witness the recent famines in China and India, the phenomenal tidal waves and marine earthquakes in the South Pacific, the ominous muttering of wars and rumors of wars in Europe and Asia, the yellow fever epidemic in our own country, and the skeleton footprints of cholera advancing westward across the North African deserts. The cause of these alarming disturbances in the physical world is stated by the Science of Health to be the approaching simultaneous perihelion of the four largest planets of our solar system, Jupiter, Saturn, Uranus and Neptune. During the terrestrial year of 1880-81, these four planets will make their nearest approach to the sun all at once, and it is predicted that the result will be a serious modification of the atmospheric and organic conditions of our globe. If we accept the scientific theory that the great flood of Noah's time was caused by the unusual precipitation of moisture in our atmosphere through the influences of the combined perihelia of the four largest planets in our system, then surely we cannot dispute the prediction that the recurrence of the same cause, which is about to occur, will produce the same effect, in degree at least, if not in form.

"The Republicans," says the New York Tribune, "can not expect public confidence hereafter unless they devote themselves sincerely and earnestly to the work of protecting the public interests." Good advice, indeed! But as the Republicans have never yet engaged in the work of "protecting the public interests," it is too late for them to begin the operation, even if they were favorably disposed. Nothing, indeed, can be more ludicrous than the assumption that this party has protected public interests. The protest against the rotten concern which has been going up from the country for four years is proof enough that it has not the public confidence. Almost from the inception of its power, the Republican party has directed all the machinery of government to the accomplishment of party, personal and selfish ends. It has lived and fed on discord; it has been controlled by rings; it is to-day trying to stir up strife that it may curse the country a little longer. "Protect the public interests," indeed. It has never protected the public interests.

In an article upon matters of vital importance, to be considered by the next General Assembly, the Southern Home says: It is to be hoped the ensuing Legislature will meet with a determination to settle all important questions affecting the interest and character of our State. The most important of all is, the adjustment of our State debt on some equitable principle, and remove the foul blot of repudiation hanging over her reputation. Most of the Southern States and cities have either adjusted their liabilities or are in a fair way of doing so. The old anti-war debt ought to be paid, as it was just. The State has forced individuals to settle their debts in full, or at least by relinquishing their property to the creditors, except what could be claimed under the homestead. Shall not the State be as honest to her creditors as she compels her people to be to theirs? But with regard to the debts made by the Radical Legislature, in which so much fraud and rascality are involved, is a grave question of policy as well as justice, as the State enjoyed but little of its expenditures. Perhaps it would be advisable to wipe out the whole, as any effort to do justice would involve such complexity in its adjustment on any equitable principle, as would defeat the end and result in a failure.

All About Bolters.

Pee Dee Herald.

If caucus-bolters and party-disorganizers are to be always rewarded with the offices to which they aspire, then, maybe, all hands had better turn out to bolting and disorganizing. If the men who, in its days of darkness and doubt, as well as in its later days of success and triumph, *always* abided by the action of the caucus of the *Democratic party*, are to be set aside for those who pursued a different course—if those who call themselves Democrats, and still owe their past and expect their future success at the hands of *radicals* shall again receive Democratic (?) votes enough to elect them, then we say the loosely formed and powerless organization of that party renders its disruption inevitable. We call no names,—only indulge in a sort of latitudinous generality, which some folks may understand.

An International Dairy Fair

Springfield Republican.

The dairy products of the United States are every year growing in importance, and both butter and cheese attaining handsome figures in our list of exports. The amount of butter for the year ending June 30th shipped abroad, for instance, amounted to nearly 22,000,000 pounds, and of cheese nearly 124,000,000 pounds. In order to further attract foreign attention to these staples an international dairy fair is to be held in New York, beginning December 4. It is proposed to exhibit not only butter and cheese, but also all kinds of dairy implements, designs and models of barns, milk-houses, creameries, cheese factories, etc. The secretary reports a very favorable response from all sections of this country and from Europe, and the prospect is good for a successful exhibition. The purpose of the fair is to stimulate this industry and show our dairymen its immense possibilities.

A Fool's Errand.

A man named Potter wagered that he could wheel a barrow from Albany, N. J., to San Francisco, in 215 days, a distance of 4085 miles. When last heard of he was at Sacramento, and expected to make his point of destination, and have a few days to spare. He got the post marks from all the principal post offices on his route, and the autographs of many distinguished men as a proof of his trip. The greatest obstructions in his way were the long trestles on the railroad, but he overcome all this, and upon many occasions he acted in the capacity of U. S. mail carrier, carrying and delivering letters as he rolled along.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN.

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

A CERTAIN AND SPEEDY

CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. The thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Not being did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. AS A TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain,

Very respectfully,
T. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL.

Respectfully your friend,
MRS. F. L. BROWN

Sept. 26. 1878.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.

LOCAL BRIEFS.

——Tuesday is election day.

——Up Democrats and at them.

——Democrats, work and vote for Joe Davis.

Only one more working day and the election will be here.

——Let every Democrat do his duty to his principles and himself by voting for Davis.

——The cotton market changed from gay to grave yesterday; or, rather, the dealers did.

——A letter is held at the postoffice for M. R. Smith, Johnston county, which bears no direction.

——Wake county, as usual, leads the State on marriage licenses. Isn't this a good sign of her prosperity?

——Let the want of energy among Democrats cease now, and all go to work in earnest. It is never too late to mend,

——Special attention is directed to the local advertisement of that reliable grocer, J. W. Watson, which appears this morning.

——The delegates to the Sunday School Convention seem to be very hospitably entertained, and receive a general and hearty welcome here.

——An exchange says Greensboro has eighteen lawyers, of whom seven pray in public, when invited. Raleigh has three times that number and they all prey, both publicly and privately.

——The Fair at Fayetteville bids fair to be better than usual this year. Many articles will be on exhibition, and great numbers of visitors are looked for. The Calliopean Minstrels, of this city, will be present.

——The municipal authorities of Charlotte are after those merchants and clerks who drum for customers on the streets, such a practice being a violation of the law, and several arrests have been made for this cause.

——The attractive advertisement of Messrs. R. B. Andrews & Co., in this morning's issue, will suggest to many the importance of going at once and supplying themselves with one of those "Chest Shield" shirts.

——The Oberlin Guards reminded the citizens here of their existence by a parade on the streets on their return from Greensboro, yesterday, in which they made a fair display. They went up to attend one of those delightful amusements, a "festible," as the darkey terms it.

——Messrs. Stronach & Allcott, one of the most live, energetic and progressive business firms in the city, are handling consignments of cotton and country produce to the special advantage of consigners. They pay special attention to this line of business and may be relied on for prompt and accurate returns.

Special Term.

Judge A. C. Avery yesterday received a commission from Governor Vance to hold a special term of the Superior Court for Madison county.

Carolina Enterprise.

Messrs. W. T. Blacknall & Co., the great tobacconists of Durham and the State, yesterday filled an order for their smoking tobacco from far off Melbourne, Australia.

Military Gossip.

The unattached Company at Davidson College is now being handsomely uniformed in dark blue with white facings. The company is one of the largest in the State, and may, perhaps, attend the Charlotte Fair.

The Raleigh Christian Advocate.

As foreshadowed in the columns of the News, the above paper has changed hands. The new editors and proprietors, Revs. W. S. Black and F. F. Reid, have taken charge, and the next issue will appear under their auspices. The best wishes of the News attend them.

Register.

Monday is the last day upon which you can Register. See to it that your name is enrolled on the registration books, then look around you and see if you have no friend who has failed to perform this duty, and persuade him earnestly and persistently to do so, until you see his name upon the books.

Resigned as Trustee.

The Board of Directors of the N. C. R. R., met in Greensboro Friday. Hon. John W. Graham resigned as a State Director and was elected Trustee of the Road. This latter position was filled for many years by his distinguished father. More lately it has been filled by the Rev. N. H. D. Wilson, D. D.

Read this Notice.

Dr. Richard H. Lewis (practice limited to the Eye and Ear) will be absent from the city until the 18th instant.

Personals.

Bishop Keane left for Wilmington yesterday.

Sir George Campbell, of Scotland, is in the city. He is making a tour of the Southern States, to look at the lands, as well as the modes of labor etc. He is at the Yarboro.

In New Quarters.

Mr. M. T. Jordan, one of the cleverest and best salesmen in the city, who has long held a position at the store of Petty & Jones, has taken a position in the establishment of A. Creech, Esq. That gentleman has reason to congratulate himself upon the acquisition of so valuable an assistant, and the many friends and customers of Mr. Jordan will receive his best courtesy and attention in his new quarters.

Off for Charlotte.

To-morrow morning two amateur pedestrians of this city begin a walk to Charlotte, for a purse of $200. The parties contesting are E. A. King and Fritz Kooner. The former is backed by Dr. G. W. Blacknall, while the latter's upholder is P. C. Walker. There are quite a number of side bets on the issue. The pedestrians leave the Yarbrough at 9 o'clock and King says he expects to reach Charlotte on Saturday next.

City Bottling Establishment.

Among the local advertisements appears one of that reliable dealer in bottled malt liquors, mineral waters, etc., Mr. M. Bill. This gentleman has had large experience in the preparation of these delightful beverages, and is now running a large bottling house, from whence he daily delivers his preparations. The extent of his trade shows their popularity, and he is highly recommended by hundreds of persons here.

Latta & Myatt.

Attention is called to the well established and deservedly popular firm of Latta & Myatt, who occupy the old stand of Barbee & Latta on Marton street. These gentlemen are business men and stand second to no firm in fair dealing and experience in their line. Mr. C. G. Latta is well and favorably known as a gentleman of the highest integrity, while Mr. W. A. Myatt's reputation as a merchant is unquestioned. They do business on the square and deserve public patronage.

Could Not Go.

The illness of his wife prevented Gov. Vance from visiting Wilmington on the 1st instant, as he expected to do. Referring to his not being present, the Review says: This we very much regret, both on account of the illness of Mrs. Vance and the disappointment the many friends of the Governor in this city will feel at his inability to accept the invitation extended him. We would like of all things in the world to hear Gov. Vance in this section just about this time, for if there is any man in the State that can make an apathetic Democrat come up to the polls by giving him a good talk, Gov. Vance is that man.

Baptist State Convention.

The Baptist State Convention meets in Charlotte November the 6th. The appointments are as follows: To preach the introductory sermon, Rev. J. A. Mundy, of Warrenton; alternate, Rev. J. B. March, of Iredell. Missionary Sermon, Rev. C. E. Taylor, of Wake Forest; alternate, Rev. A. C. Dixon, of Chapel Hill.

Eternal Fitness.

Of all the men who by good nature and good fits have won themselves a far and wide reputation, that jolliest and best of Tailors, Chris. Weikel, is the leader. No higher compliment can be paid a well fitting suit than to say he made it. Those who would like to be Beau Brummels or D'Orsays, can be so by getting suits at Weikel's

A Generous Contribution.

The proprietors donated several hundred dollars worth of their celebrated Seven Springs Alum Mass for the benefit of the Yellow Fever sufferers, and received the following letter in reply:

HOLLY SPRINGS, Miss., Sept. 16, 1878.

Messs. Lindsay & Litchfield, Abingdon, Va.:

GENTLEMEN:—Please accept our thanks for your case of Seven Springs "Iron and Alum Mass," received some days ago. Quite a number of our citizens are using it with good results.

Respectfully,
W. J. L. HOLLAND,

Our Buyer.

It is very difficult for a merchant to make a trip to New York, buy goods cheap, and return immediately. For this reason Law's China and Silverware establishment (Raleigh and Charlotte, N. C,) has a buyer constantly on hand in New York picking up crockery, glassware, or anything in their line cheaper than regular prices. Greater inducements are offered now in sterling silver plate than ever before. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

A Place for all Things.

The attractive interior of the store of L. R. Wyatt is a pleasant sight to the house-keeper, since it furnishes the household articles necessary for use, in every variety and of highest quality. The establishment is on Wilmington street, in rear of the market. *

Something New.

Lumsden has a grocers' scoop that is made of extra heavy tin and has an iron handle to it, with a sharp point for breaking and loosening sugar, etc., when it becomes hard in the barrel. The handle itself weighs 17 ounces and is tinned over, soldered and riveted to the scoop so there is no possible way of breaking it. Merchants and grocers everywhere would do well to see this scoop before buying another Also full stock of house furnishing goods of all kinds at Lumsdens.

Simpson's White Rose Tooth Powde beautifies the teeth and perfumes the breath. Try it.

The Smokers' Paradise.

The delights of this elysium have been sung by many of the devotes of the weed. But none are so competent to speak of its blisses as those who purchase their tobacco and cigars from the elegant little store of F. Gruendler, opposite the postoffice. *

Quite a Mistake.

We said in yesterday's paper that "all the grocers in town say their customers will not use any other Baking Powder but Jones' Unrivalled." This was quite a mistake, as the Patapsco Baking Powder has a great reputation here, and nearly every grocer in town keeps it in stock, and the demand for it is daily increasing. Merchants can be supplied at wholesale by W. H. Dodd, corner Wilmington and Martin Streets. *

I see by the News that Gimlet and Corkscrew have been to see Brewster to buy hardware; having been there to buy other goods. I find tinware and crockery in abundance and all very cheap; in fact, so cheap that I nearly bought myself rich. But I will tell you what is a fact, Brewster's goods were so cheap and he had so many of them, that I spent all my money and couldn't go to Weikel's, but will go and see him soon and have a talk about Corkscrew and Gimlet. WASH BASIN. *

Levy's Champion Shirts cannot be excelled.

The National Hotel.

By some means unknown, a report has been given circulation that this fine house would speedily be closed. Never was there a rumor more utterly unfounded. The hotel will continue to be, as it has been, first class in its accommodations and living. The traveling public are asked to test the truth of this, and will always receive a ready welcome. *

Cigars at Wholesale.

My facilities for handling cigars at wholesale are unsurpassed by any house in the State. I can offer inducements to dealers throughout the State and invite enquiry both as to quality and price. J. H. Sultan, Newberne, N. C. *

Delightful Beverages.

The ales, porter and lrger beer, bottled by M. Bill, and delivered daily in all parts of the city, are unexcelled for purity and briskness. It is the universal opinion that as a tonic or as a beverage his ales etc. have no superior. The prices are unusually low, and perfect satisfaction is guaranteed. Strongly recommended by the medical profession. *

DRIVING OVER A ROUGH ROAD last winter, one of my horses became suddenly very lame—a bad sprain of the right ankle. Applied all the remedies I knew of and those suggested by horsemen, without any benefit. The horse was entirely useless for two months, and thought him permanently disabled. Giles' Liniment Iodide of Ammonia took away the lameness and restored him.
